† Goods destined for oversea countries are largely transferred from one State to another for transhipment to the oversea country. For 1909 and the subsequent years such goods are, in this table, shown against the State from which they were finally despatched from the Commonwealth. The exports from New South Wales and Victoria—the States in which transhipments are chiefly made—are thus inflated by the inclusion of goods consigned from other States. Owing to the discontinuance of the records of interstate trade from the 13th September, 1910, adjustment on account of transhipments can no longer be made. Taking the annual average of the transhipments recorded during the years 1907, 1908, and 1909, the New South Wales figures include exports of other States amounting to £3,036,672 net, per annum, and Victoria £1,003,714, which were originally despatched as follows:—From Queensland, £1,376,454; South Australia, £1,018,592; Western Australia, £9884; and Tasmania, £1,636,426. The great difference between the value of exports from Tasmania during the year 1901 and subsequent years is due to the fact that in the former year goods despatched from Tasmania for transhipment in other States were recorded as oversea exports from Tasmania, whereas in the later years they are included, for the most part, as exports from New South Wales and Victoria.

\* Owing to the failure to record as Oversea Imports, goods received in one State of the Commonwealth for transhipment to another State thereof, it has been estimated that the value of Imports given in this table is understated by the following amounts:—1901, £2,121,500; 1902, £1,546,924; 1903, £1,024,211. † Does not include the value of Stores shipped in Australian Ports on board overseas ships. The value of Ships' Stores was in 1906, £875,966; 1907, £968,897; 1908, £1,196,106; 1909, £1,071,677; 1910, £1,080,133; 1911, £1,238,446; in 1912, £1,431,985, and in 1913, £1,458,702.

NOTE.—The altered balance of trade in the years 1912 and 1913 is due mainly to loans raised in London. From 1st July, 1911 to 30th December, 1913, £21,039,450 was added to the amount of Public Debt held abroad.

NOTE.—In the above and preceding tables, the weighted average wage in 1911 for all States or industries, as the case may be, is taken as base (= 1000). The index-numbers are therefore comparable in all respects, that is to say, they show not only the variations in wages from year to year in each State or industrial group, but they also furnish comparisons as to the relative wages in each State or industry, either in any particular year, or as between one year and another, and one State or industry and another.
